SCENE ANALYSIS

## WHERE IS THE SCENE TAKING PLACE?

The scene is taking place in Dr Linda Martin's Office, this is because Lucifer was there to seek counsel from Dr Lind Martin when the scene took place hence it happened inside the office of Dr Linda Martin.

## WHY IS THE SCENE THERE AT ALL? WHAT GREATER PURPOSE DOES IT SERVE?

The purpose of Lucifer's visit to Dr. Linda Martin in this scene is to deal with the overwhelming guilt he feels for killing his brother, Uriel. Prior to this, Uriel, an Angel, learned that their mother, Goddess, had escaped Hell and was on Earth with Lucifer. Uriel sought to eliminate Goddess to protect God's authority in Heaven and, after a conflict with Lucifer, Lucifer was compelled to kill Uriel with Azrael's Blade to save Chloe Decker and Goddess from Uriel's threats. This scene serves to explore Lucifer's emotional turmoil and his need to confess and cope with the consequences of his actions

After killing Uriel, Lucifer experienced an unfamiliar emotion which is guilt. This was a new and unsettling experience for him, as he had spent millennia as the Lord of Hell, punishing others for their guilt but never facing punishment for his own. Seeking relief from this burden, he visited Dr. Linda Martin's office to seek counsel and find a way to cope with the guilt he felt for his brother's death and his belief that he deserved to be punished

## WHAT IS THE SCENE DOING THERE?

The scene's purpose is for Lucifer to reveal his true Devil form to Dr. Linda Martin. This decision was prompted by Lucifer's conversation with her. Lucifer began by sharing his guilt over his brother Uriel's death and eventually confessed to killing him. He explained that Uriel posed a threat to Detective Chloe Decker and his mother, Goddess. Dr. Linda became frustrated, struggling to follow what she perceived as metaphors. She wanted to help Lucifer as a human patient with personal issues, but his claims of being the Devil were challenging for her to comprehend.

Lucifer then expressed his own frustration to Dr. Linda, insisting that he wasn't speaking metaphorically, but everything he said was real. He believed he was a deserving monster. Dr. Linda urged him to be completely honest about himself, saying that's what their sessions were for. Eventually, Lucifer revealed his true Devil form to her, leaving Dr. Linda stunned and speechless. He left her office after this revelation

## WHEN IS THE SCENE IN THE CONTEXT OF THE ENTIRE PIECE?

This early scene in season 2 is pivotal for the development of Dr. Linda Martin's character. It establishes her as the first central character to witness and accept Lucifer's true Devil form. This knowledge also leads her to recognize that associates like Maze are actual demons, and Amenadiel is a genuine angel. Dr. Linda becomes a crucial figure in the series, offering guidance to Lucifer in dealing with celestial issues. She later enters a relationship with Lucifer's brother, Amenadiel, and even has an angelic baby with him. Furthermore, she is the first human to converse with God when He assumes a human form later in the series

# THESIS

THESIS

## IDENTIFYING THE SUCCESSFUL ASPECTS OF THE CHOSEN SCENE

One of the successful aspect of the chosen scene was Lucifer being able to successfully ignite the flaming sword

### WHY?

[Next](#)[+ My List](#)

## THIS IS BECAUSE

The selected scene serves to highlight the development of Dr. Linda Martin's character, notably in her role in helping Lucifer manage his emotions to harness the Flaming Sword's power. Originally, Lucifer planned to use the sword to access Heaven's gates and confront his mother, Goddess, but Linda's guidance led him to a different path which is depicted by the image above. Through a therapy session, Linda encouraged Lucifer to be more open with his feelings, and he eventually confided in her about his true intention for the sword. Linda recognized that Lucifer had been suppressing his feelings of "pain and heartbreak" related to his mother and Chloe Decker, advising him to confront and understand these emotions, even if it was challenging, as it was the key to igniting the Flaming Sword

## IDENTIFYING THE SUCCESSFUL ASPECTS OF THE CHOSEN SCENE

Another successful aspect of the chosen scene was when Linda helped Lucifer realize how he hurt Mazikeen's feelings in season 2 episode 17

### WHY?

[Next](#)[+ My List](#)

## THIS IS BECAUSE

After a conflict between Lucifer and Maze, they both visited Linda to discuss the aftermath of their meeting with the ethics board chairman regarding Linda's reinstatement. In their conversation, Lucifer didn't understand why Maze was still angry with him. Linda straightforwardly pointed out that he had used her, and while Lucifer justified it as being for the greater good, Maze felt abandoned and hurt. Eventually, Lucifer comprehended the impact of his actions, apologized to Maze, and acknowledged that he should have been more aware of her feelings

## IDENTIFYING THE UNSUCCESSFUL ASPECTS OF THE CHOSEN SCENE

One of the unsuccessful aspect of the chosen scene was when Dr. Linda Martin almost died

### WHY?

[Next](#)[+ My List](#)

## THIS IS BECAUSE

Dr. Linda Martin being the first central character to know about Lucifer's celestial family has both advantages and disadvantages. One significant disadvantage occurred when Goddess, severely injured, sought Linda's help to treat her celestial wound after a violent incident. Linda, the only human aware of Goddess's true identity, had to patch her wound using duct tape. When Linda accidentally questioned if Lucifer had caused the injury, it piqued Goddess's curiosity. She later confronted Linda, demanding the truth and inflicting severe harm until Linda confessed to Lucifer's plan. This reveals how Linda's knowledge exposed her to dangerous situations and moral dilemmas within the celestial world

## IDENTIFYING THE UNSUCCESSFUL ASPECTS OF THE CHOSEN SCENE

Another unsuccessful aspect of the chosen scene was about the CGI effects of Lucifer's Devil Face

### WHY?

[Next](#)[+ My List](#)

## THIS IS BECAUSE

The series Lucifer was initially owned by Fox Corporation for its first three seasons. However, due to low ratings and high production costs, Fox canceled the show in 2018. Subsequently, Netflix acquired Lucifer and renewed it for the fourth, fifth, and sixth seasons, in response to a fan campaign. This move by Netflix led to improvements in production, including better CGI effects. Notably, from the fourth season onwards, Lucifer's Devil Face underwent a significant upgrade, becoming more realistic and of higher quality compared to the earlier seasons under Fox Corporation's ownership.

# CONCLUSION

CONCLUSION

## IN CONCLUSION

The selected scene's purpose was to initiate the character development of Dr.

Linda Martin and emphasize her vital role in the series. This choice by the director aligns with the audience's perspective, as Linda is a central character who serves as a crucial element of the show. She acts as a sounding board for

Lucifer's inner thoughts, propels the plot forward, and helps develop the character of Mazikeen. Additionally, Linda becomes Amenadiel's love interest, providing humanity to his character. Her presence is essential to the series, and

the scene effectively demonstrates her ability to handle the revelation of Lucifer's true identity and her unwavering commitment to helping him with his various issues, including celestial problems

## PROVE?

[Next](#)[+ My List](#)

## TO FURTHER PROVE

The director's decision to have Doctor Linda as the first character to know Lucifer's true identity is both successful and necessary. This is especially evident when considering moments in the series when Lucifer used his Devil face to "punish" humans who had committed wrongdoing. When other humans witnessed his terrifying visage, they typically reacted by either going into a state of madness or being consumed by fear for their lives, as depicted in the images above

[Next](#)[+ My List](#)

## HOWEVER

Compared to others who saw his Devil face, Dr. Linda had a unique reaction. She wasn't scared or driven to madness, instead, she was stunned and shocked, primarily because she couldn't believe that her patient was the actual Devil. Her role as a doctor and therapist made her the ideal choice to be the first central character to know Lucifer's identity, as I previously discussed in the thesis on the successful aspects of the scene. Linda's profession allowed her to assist Lucifer in managing his emotions and resolving the misunderstandings and issues between him and Mazikeen. Her ability to understand people's feelings and how their emotions are affected by the actions of others made her a critical character for this role. This outcome would have been different if another central character had been exposed to Lucifer's identity instead of Doctor Linda
